Trails Mentorship Workshop

Duration: 6 Days
Dates: Monthly

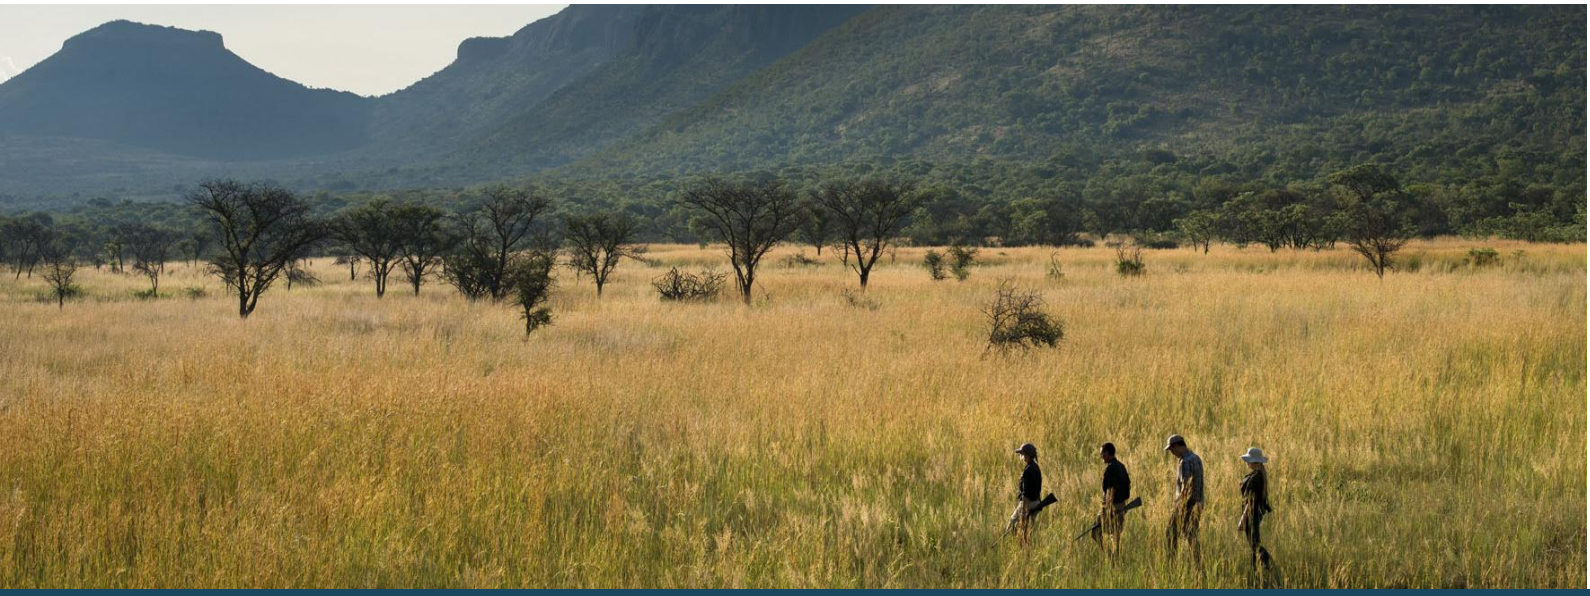

Trails Mentorship Workshop

Step into the wild and take the next step on your journey to becoming a FGASA Trails Guide.
This immersive 6-day workshop is designed for field guides currently enrolled in the FGASA Apprentice Trails Programme, providing a unique opportunity to build essential mentored hours under the guidance of an accredited FGASA Mentor.

Over the course of the workshop, participants can expect to log approximately 40 mentored hours, all of which contribute directly toward the FGASA Trails Guide qualification. While exploring the iconic Marataba Section of Marakele National Park, you'll also gain invaluable bush experience, with the chance to log around 10 encounters during the programme. (Please note encounters remain unpredictable and are dependent on nature.)

Requirements to join:

- Active FGASA membership
- Enrolment in the Apprentice Trails Programme
- Valid ARH (Advanced Rifle Handling)
- Current First Aid certification
